Viva Voce

Some thoughts on women's
health + sexuality,

Viva Voce is used to mean 'word of mouth'. This fits in with what this zine has been about for us.

We don't think there is enough sharing of experiences by women + challenging their silence is part of our political struggle

This zine is partly about us trying to reclaim + add to the tradition of women passing on information about their health, sexuality + lives

We hope both women + men read this

You can write to the two women who mostly wrote + compiled this zine at

VivaVocewimmin@yahoo.co.uk

or send letters / zines / money to
viva voce c/o book collective, lowley
club, 12 london road, Brighton, BN1 4JA
